

## THE MAGIC WATCH

One day, in 2500, Mikel was in the street. Mikel was 8 years old. He looked at a watchmaker's workshop window. He liked a very small watch, but it costed a lot. Mikel was orphaned so he had not money to pay the watch. So he decided to talk to the shop assistant:

*-Hi! I want this watch.*

*-OK, but do you have all the money? In total are 231'50€.*

*-No, I haven't, but I'm going to propose you one thing: If I work for you very hard in one week, you give me the watch.*

*-OK, I like the propose, you can start cleaning the shop.*

*A week later, Mikel recived the watch.*

Mikel was resetting the watch and he touched a button. Suddenly he didn't hear anything. He looked to his around, and all the people were stopped.

### IT WAS A MAGIC WATCH!

Mikel was very happy, because he could stop the time with a botton of a watch. Mikel went to say to his only friend; the waiter of a pub. He said to his friend Adam. Both were amazed!! In the pub was a man hearing the conversation; he was a bad man.

Mikel wanted to have fun with the watch. Mikel thought that in a football stadium he was going to have fun, so he went to the Manchester United's football stadium. It was Manchester United versus Chelsea. Mikel stopped the time, and entered in the stadium. He wanted Manchester United to win so he stopped the time again, and he moved all the players of Chelsea far, included the goalkeeper and put all the players of Manchester United in front of the goal with the ball to score a goal. Mikel went to the stands of the stadium, and he clicked again the button, to back to the real life. When he clicked the button, the Manchester United scored a goal. And he went to the street to have some food stopping the time.

The next day, in the pub of his friend Adam, all the people were looking at then news. One of the news was the football match between Manchester United and Chelsea. The reporter said:

*-The police is finding a little boy, that we don't know how, but he manipulated yesterday's football match. The police said that the person that founds this child, will have a good reward.*

The bad man that heard the conversation between Adam and Mikel was hearing the news of the radio. He remembered the conversation and suddenly he saw Mikel. Most fast than he can, the bad man caught and took Mikel to the Police.

Then in the Police Station, Mikel delivered the watch and the Police payed to Mikel the price of the watch and they accommodate in a very prestigious Hotel. And the police doesn't give the big reward to the bad man, because he had criminal records.
